SUCCESSFUL D35, D21, J4 PSC INFILL DRILLING (D21 FIELD), OFFSHORE MALAYSIA

Roc Oil (Sarawak) Sdn Bhd, a wholly owned subsidiary of ROC, is pleased to announce commencement of oil production from the new A5 well at D21 field offshore Sarawak on 8th October 2017. This milestone represents the conclusion of the D21 four (4) wells drilling campaign for the D35, D21 and J4 Production Sharing Contract (“PSC”).

Following the success of the D21 drilling campaign, which was completed within budget, ROC expects to unlock more reserves than originally estimated.

Dr Yuanlin Jiang, CEO and Executive Director stated “We are particularly pleased with the success of our drilling campaign to date which holds positive implications for reserve estimates and future drilling”.

ROC will continue with the next drilling campaign on J4 field in early November 2017.

Dr. Yuanlin Jiang
Executive Director &
Chief Executive Officer
